## Teste 3 – Slider: HTML+JavaScript

atualizado em 20out2016 – glaucius@pelotas,ifsul.edu.br

### Arquivo HTML: slider.html

```
<html>
  <body>

    <div>
      <input id="slider1" type="range" min="100" max="500"
        step="50" value="100"
        onchange="printValue('slider1','rangeValue1')"/>
    </div>

    <div>
      <input id="rangeValue1" type="text" size="2"/>
    </div>

    <script>
      function printValue(sliderID, textbox) {
        var x = document.getElementById(textbox);
        var y = document.getElementById(sliderID);
        x.value = y.value;
      }

      window.onload = function() {
        printValue('slider1', 'rangeValue1'); }
    </script>

  </body>
</html>
```
